 2. **Feature Request:** The Licensee may request additional features be added to the Software, provided, however, that (i) the Licensee waives any claim or right over such feature should it be developed by the Licensor; (ii) the Licensee shall be prohibited from disclosing such

feature request, or feature, to any 3rd party directly competing with the Licensor or any 3rd party which may be, following the development of such feature, in direct competition with the Licensor; (iii) the Licensee warrants that the feature does not infringe any 3rd party patent, trademark, trade-secret or any other intellectual property right; and (iv) the Licensee developed, envisioned and/or created the feature solely by himself, herself, or itself.

9. **Warranty:**

1. **Intellectual Property:** The Licensor hereby warrants that, to the best of his/its knowledge, the Software does not violate or infringe on any 3rd party claims with regards to intellectual property, patents, and/or trademarks and that no legal action has been taken against him/it for any infringement or violation of any 3rd party intellectual property rights.
 2. **No-Warranty:** The Software is provided without any warranty and the Licensor hereby disclaims any warranty that the Software shall be error free, without defects or code which may cause damage to the Licensee (as enumerated in clause 8), or that the Software shall be guaranteed to be functional.  3. **Prior Inspection:** The Licensor hereby states that he/it has inspected the Software thoroughly and has found it to be satisfactory and adequate (to the best of his/its knowledge). Furthermore, the Licensor states that it does not interfere with regular operation and that it does meet the standards and scope of those systems and architectures under which it was tested. The Licensor contends that he/it found that the Software interacts appropriately with his/its development and test environment[s] and that it does not infringe on any End User Licensing Agreements for any software being used to enable its features, capabilities, and/or services. Given these attempts by the Licensor to verify the safety and stability of the Software, the Licensee hereby waives any claims regarding the Software's incompatibility, performance, results, and/or features, and warrants that he/she/it has inspected the Software to the best of his/her/its ability before using it.
10. **No Refunds:** The Licensee warrants that he/she/it has inspected the Software according to clause 9.3 and that it is adequate to his/her/its needs. Accordingly,

as the Software is an intangible good, the Licensee shall not, ever, be entitled to any refund, rebate, compensation or restitution for any reason whatsoever, even if it is determined that the Software contains material flaws.

11. **Indemnification:** The Licensee hereby warrants to hold the Licenser harmless and indemnify him/it for any lawsuit brought against it with regards to the Licensee's use of the Software, especially in means that violate, breach or otherwise circumvent this License, the Licenser's intellectual property rights or the Licenser's title with regards to the Software. Conversely, the Licenser agrees to promptly notify the Licensee in case of any legal action against the Licenser that may relate to the Licensee and request the Licensee's consent prior to any settlement in relation to such lawsuit or claim.
12. **Governing Law, Jurisdiction:** The Licensee hereby agrees not to initiate any class-action lawsuits against the Licenser in relation to this License and to compensate the Licenser for any court, attorney, or other legal fees should any claim, brought by the Licensee against the Licenser, be denied either in part or in full.
